

Congratulations to the Microsoft SQL Server 2005 Front Runners!

Microsoft is proud to announce the Independent Software Vendors (ISVs) who have achieved Front Runner status by building their applications on the powerful and secure Microsoft® SQL Server™ 2005 platform. They have tested these applications and are among the first to bring them to market. In celebration of their achievement, we have listed their names below. Look for ISVs who display the Front Runner stamp to ensure your application is built on SQL Server 2005.
